**Location** Aalborg, Denmark

**Photographer** Clienti a|s, Aalborg, L-V-COUNTRY-DK

**Type of Building** Office

**SWISSPEARL**

The contemporary office building, Visionshuset, stands out with its sleek, minimalist aesthetic and innovative use of sustainable elements. The architects have skillfully incorporated large windows and open spaces to maximize natural light and create a bright, inviting atmosphere. For the exterior, a harmonious blend of glass, steel, concrete and grey Patina Original fibre cement panels gives the building a contemporary and sophisticated appearance. These materials not only contribute to the building's striking visual appeal but also ensure long-term durability. Visionshuset is a standout example of how architectural design and material selection can come together to create a modern and aesthetically pleasing office space that aligns with sustainable principles. With the sustainable approach to the office building, Visionshuset has been DGNB Silver-certified.

Please note that this Reference project features Patina products. However, since the colour range for Patina NXT is the same, this reference also provides a general impression of the look and feel of a Patina NXT project.
